... building really cool Afro art on Solana

September 2021

About Us...

Where did it all start from?

- The birth of Afrobubble commenced with the vision to create an ecosystem that enables inclusiveness of diverse African curators in a continent of endless possibilities.
- In the Bub kingdom, there are 3 Chief Bubs responsible for the development of a community of endless possibilities, commencing with the birth of 9,999 bubs.
- To ensure success, the project will be community oriented with bubs holders having voting rights and say to the development of the Afrobubble ecosystem

Why are we building on Solana?

- We are building the ecosystem on Solana to facilitate seamless inclusion of diverse curators from the African continent. The Solana ecosystem will facilitate the access and ensure seamless integration and delivery of elements and stories that represents the African culture, values and beliefs to the global community. This access will be achieved via low gas fees and constant quest for innovation on the Solana ecosystem.

What does the future look like for Afrobubble?

- The future looks great not just for Afrobubble but also for the community. The community will be an integral driver of how the Afrobubble ecosystem develops. We have exciting initiatives in the pipeline (*see the roadmap for more details*). In all, we would say "Believe in us, Be ready, and Be excited". We will give you no reason to regret being part of this amazing community. #LFG Bubnation...

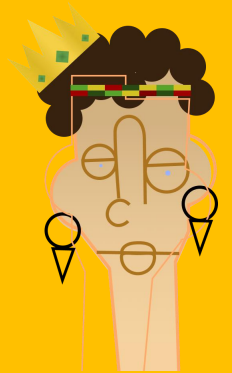

What inspired the art?

- The artwork is largely inspired by the African continent and we are focused on showcasing how bold and beautiful our features are i.e. the uniqueness of our hair, the fullness of our lips and nose, among others.
- Under that is a soft intonation that Africans have all skin tones and we are no different than any other race. We all want the same things, a better life, love, admiration and to live happily. This stretches across all races, so we should learn to embrace one another.

The art itself...

- The lines were inspired by one of the Chief Bub's background in architecture. We also felt the need to infuse that with orifice elements. The inter-connected lines reflect an origin of connectedness within the natives of the African continent and encourages "oneness" within the human race.
- If you notice, there is one Bub missing and that 'one bub' might just be the missing link to the 'chain' that connects the world. Lastly, to us as a team, the art represents that great things can come from anywhere.

Afrocentric NFT Marketplace....

...Powered by the Solana Ecosystem

Roadmap...

Immediate...

After NFT Mint...

3

• Utility & Partnerships

4

• Afrobubble Launch Pad

5

• Afrobubble Secondary Marketplace

6

• Afrobubble Token

A little more information about our roadmap..

1

Website Launch & NFT Mint Countdown

We will develop an interactive website that details key information including key activity timelines and project progress. The Affrobubble website will be used as a communication campaign tool to keep the Bubnation informed about key next steps and new initiatives

The website will also detail key information about the Bubs Mint countdown. The mint price per Bub will be 3 SOL. We will also approach the mint by ensuring a 1 for 1 mint process i.e., only one mint per transaction. This approach is to give the community a fair chance of getting a Bub.

2

Community Engagement, AMAs, and Meet The Team

We will host community engagement to keep the Bubnation ecosystem informed on progress and key milestones. This will be via the Discord channel, Clubhouse and Twitter spaces.

We will conduct AMAs to discuss with the Bubnation community. This will be aimed at not only distilling the plans for the project but also answering questions from the Bubnation, thus ensuring every Bub's voice is heard and expectations are aligned. We want to know every Bub and we will.

The team a.k.a Chief Bubs will be introduced during the various community engagement sessions. The team's experience ranges from Management Consulting, Project & Product Management, Digital Art Curation, and Marketing and Branding Strategist.

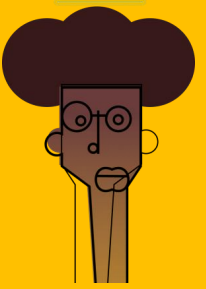

A little more information about our roadmap..

- Utility & Partnerships**
 -  Bub holders will get a chance to participate in the presale of upcoming Afrocentric NFT projects on our launchpad. This will be based on a lottery model to give a fair chance for all Bubs depending on the project size
 -  Afrobubble will partner with tourism companies, Museums and National Parks within the African continent to enable Bub holders get discount and deals on holiday packages and tourist locations. This will help facilitate AfroBubs meet ups and deepen physical community engagement/ interactions
- Afrobubble Launchpad**
 -  The AfroBubble NFT Launchpad will be dedicated to enable afro-inspired artiste launch their projects and raise money for a chosen cause.
 -  Existing AfroBub holders will have first time access to the projects launching on the Afrobubble launchpad. The approach will be in a lottery format that enables 1 to 1,000 lucky afro bub holders get a front row seat at every exclusive mint.
- Afrobubble Secondary Marketplace**
 -  An Afrobubble secondary marketplace for all existing afro-inspired art projects including those delivered via our launchpad.
 -  When unveiling the secondary marketplace, we will also unveil the last Bub missing during the 9,999 initial drop. The last Bub will reveal the plans for the future of Bubnation.
- AfroB Token**
 -  The AfroB Token will be airdropped to all existing Bub holders. This token will be our vote and governance token which will drive the decision making and future of the Afrobubble ecosystem

Timelines

Key Activities		Timeline
1	Website Launch	To Be Announced
2	NFT Mint Countdown	To Be Announced
3	Community Engagement & AMAs	Immediate & Ongoing
4	Utility & Partnerships	Q4, 2021
5	Afrobubble Launch Pad	Q4, 2021
